Subject Activity Report Week Ending 9/13/87

1. Inspected a 130 foot used radial stacker considered for barge loading of Superior Silica. Price of \$45K appears, for now, to be out of our interest.
2. Pacific Wrecking Corporation here to review plantsite and submit quotation for plant demolition.
3. Lone Star advised that they will import Onada Cement for our use this fall. I replied that we will not accept Onada Cement. Not satisfied, they directed their request to several other parties until such chaos developed that it is being referred to Mr. Wells for handling.
4. M.V. Cosmos Victory arrived with 21,000 tonne Ube Type I at 5:00 p.m. on 9/10/87.
- 9/11 5. Ecology and Environment followed up their EPA Superfund investigation with a phone conversation to clarify some questions. Though Cr continues to be their emphasis, they admit misunderstanding the maximum conc. level for Cr and acknowledge that our tests show us well below this level.
6. Security Guard injured back while opening plant gate and taken to hospital.
- 9/11 7. ~~No Accidents at plant.~~ Doctors treatment of cement dust in eye at Terminal
8. No visitors.
